

Want to build with us Europe's leading Streaming Platform?

We help you develop, evolve and maintain your video streaming apps

– whether you prefer to outsource, insource or a combination of
both. We create teams in-house or remotely.

Hi Ola Nordmen,

For Broadcasters and Operators who choose to build TV streaming products in-house, we offer specialist consultants and services packages for both short and long term needs. We have significant experience across the value chain of TV streaming, from video formatting to UI/UX design & development.

Unleash the streaming potentials

If you are building streaming products in-house, but require specialised support, get in touch for a consultation. Tell us a little about your project and the service you are interested in and we'll respond as soon as possible!

GET A DEMO

Whether you need TV specialists consultants for frontend development or an end-to-end testing services package, we can help!
